

Harco Manufacturing- Press Release

Harco Manufacturing is pleased to announce the recent addition of Dr. Juan G. Andrade to the Sales and Marketing Team. His main areas of responsibility will be to develop the Latin American market and the technical development of new products in Exhaust Emission Controls. Dr. Andrade has over 20 years of experience in product and territory development in both domestic and international markets and will be a strong addition to the Harco team. Dr. Andrade has held similar positions with such noted companies as Sud-Chemie, Degussa-Umicore, and BASF-Engelhard and his extensive experience in the international markets will assist Harco Manufacturing continue to grow these markets. His strong chemical expertise and his many years in the clean air environment will be an asset to Harco Manufacturing as they develop strong product offerings in these areas. Dr. Andrade's knowledge and relationships with NGO's, and international-domestic government organizations like CARB and EPA will be crucial in the development of new products within the Environmental Air Quality markets. Dr. Andrade, holds, MA and PhD Degrees from Princeton University and he is also an Alexander von Humboldt Fellow.

Harco Manufacturing, established in 1948 is a leader in the engineering and production of premium exhaust systems and advanced emission control products.
