*For price information see Section 2 Page 6

*Note Estimated weight only

Larger size must use our low profile rectangular style silencer. Reference Section 5 Page 10.

Recommended Applications:

- Engine generator exhaust system for attenuated enclosures
- Marine engine exhaust systems
- ISO containers for emergency power
- Military exhaust systems
- Generator exhaust system in buildings with low overhead such as parking lot facilities
- Waste water plants

Features:

- US Patent No. 5, 670, 757
- Low profile, low back pressure, fully insulated top, sides and bottom
- Full insulated internal surfaces greatly reduce radiant heat and shell surface noise
- Mounting brackets included
- Threaded flush mounted flanges for lower profile and greater strength, allows the elimination of insulated wrap for the pipe stubs
- Heavy duty all welded steel or stainless steel
- Attenuation 30-45 dbased upon **velocity not to exceed 9000 FPM**
- Optional inlet and outlet locations
- Optional rectangular outlets for additional space saving

Accessories:

- Flexible Connectors
- Hanger Brackets
- Mounting Bands
- Gaskets HiTemp
- Nuts & Bolts
- Wye Connectors
- Wall & Roof Thimbles
- High Temp Exhaust Blankets
- Support Legs for Vertical Mounting
- Rain Caps
- Exhaust Pipe Spools
- Backfire Relief Vents
- Flanges of all types
- Clean outs or Inspection Ports
